AUSTRIAN KILLS AN ENGLISHMAN

Takes Revenge When He
Hears of War Losses and
Grinds Fellow Worker's
Head in Drill Press.

Denver, Colo., Oct. 22.—George Flaragrad, an Austrian, was arrested here today charged with murder in connection with the death of George Gray, an Englishman, who was crushed in the machinery at the Colorado & Southern railroad shops, here, August 26th. According to the police Flaragrad heard that a brother in the Austrian army had been killed and in revenge pushed Gray into the machinery. Gray is said to belong to a wealthy English family.

Flaragrad was arrested on a story told by Robt. Black who claimed to be an eyewitness. Both men were taken into custody. At police headquarters Black repeated his accusations before Flaragrad, who denied knowledge of the affair.

Gray had been employed as a minor "boss" at the shops for six months. He and Flaragrad had quarreled frequently over the war. The Austrian's bitterness became intense when he was told that an Englishman had killed his brother in the European war.

Black told the district attorney that on August 26 Gray was operating a powerful drill press, boring holes through steel. Flaragrad, according to Black, seized Gray's sleeve, and shouting, "I'll show you how the Austrians kill the English," dragged the British's arm into the drill press. Then, Black said, the Austrian pushed Gray's head into the machine. The revolving drills crushed the head, killing Gray instantly.

Flaragrad was arrested late today and taken to the city jail to await the filing of formal charges. Black was held in custody as a material witness.

According to his story as told to the prosecutor, Black saw every detail of the alleged crime. He said he was so horror-stricken that he was afraid to reveal it to any one and after the coroner's jury had returned a verdict of accidental death he still kept his secret, fearing that he would be punished for his previous silence.

**DR. CLAYTON RANSOM
HAS BEEN FOUND**

Salt Lake City, Utah, Oct. 22.—L. H. Judd of Salt Lake this morning received a telegram from his son Del B. Judd of Wilson, Wyo., dated yesterday, announcing that the body of Dr. Ransom had been found and that he had been killed by the accidental discharge of his own gun when attempting to climb over a log. The telegram gave no further particulars. Wilson is about twenty miles from Victor, Ida., the nearest railroad point.

Dr. Clayton Ransom lived in Mill City, Ore., and a reward of \$500 for him recently was offered by his brother who thought he had been murdered or kidnapped. It was reported last night from Roseburg, Ore., that he was wounded but alive.

Roseburg, Ore., Oct. 21.—Dr. Clayton Ransom, who disappeared September 17 last, while on a hunting expedition in the Jackson Hole country in Wyoming, has been located, according to a telegram received today, by his father, who lives at Riddle. Dr. Ransom had accidentally shot himself in the head, the telegram stated, and it was gathered from the message that he had been found in time and his wound successfully treated.

Salem, Ore., Oct. 21.—The body of Dr. Clayton L. Ransom of Mill City, who disappeared September 17 last, while on a hunting expedition in the mountains of the Jackson Hole country, in Wyoming, was found yesterday by searching parties near the place where he had been camping with Dell J. Judd, a guide. Ransom had been shot and killed.

This was the word received at Aumsville today by Tom Ransom, a brother of the dead man, in a telegram from Nick McCoy of Wilson, Wyo. How Ransom met death was not told in the telegram.

Cheyenne, Wyo., Oct. 22.—Posses searched continuously for three weeks for the body of Dr. Clayton Ransom, who was last seen was trawling a she bear and her cub. It was supposed the animal had killed him. Dr. Ransom's gun was known to have had defective mechanism.

SEVENTH DAY ADVENTISTS GAIN

Church Membership Almost
Ten Per Cent Greater in
Year 1914 Is Annual
Report.

Washington, Oct. 22.—A gain of 11.286 or 9.6 per cent in the membership in the Seventh Day Adventist church for the year 1914 is shown in the annual report of H. E. Rogers, statistical secretary of the general conference of that denomination, made public today. The total membership at the end of the year was 125,864.

Contributions for evangelic work totalled \$3,099,495, an increase of nearly \$225,000 over 1913. Contributions for foreign missions in the North American division were over half a million.

HOMESTEADS IN OGDEN DISTRICT

The following applicants have recently had land in the national forests listed for them with the secretary of the interior, having been applied for under the act of June 11, 1906, known as the Forest Homestead act. These lands are all located within District 4, with headquarters at Ogden.

Two applicants have secured land on the Humboldt national forest, Nev., as follows: Paul H. Winstead of Gold Creek, Nev., 97.55 acres. Judging from land near this tract similar in character, vegetables, fruits, grain and hay can be matured, and will probably be worth \$25 per acre when improved. Mr. Hurel Hurst Hunter of Gold Creek, Nev., 158.40 acres. This land is principally valuable for raising hay, and is estimated to be worth about \$15 per acre when improved.

In the Minidoka national forest, H. B. Tracy has secured a tract of 160 acres, his address being Yost, Utah. This land is located within the Raft river watershed, and it is reported that about eighty-five acres of it will grow winter wheat, barley, oats, and rye profitably, though transportation facilities are poor.

In the Teton national forest, H. C. McKinstry of Moran, Wyo., has secured 160 acres about 41 miles from Jackson, Wyo., and 66 miles from a railroad. Hay is the principal crop raised on similar nearby land, though hardy vegetables can also be grown. It should be worth from \$20 to \$25 per acre after being cultivated.

In the Weiser national forest, Andre Gerulf of Council, Ida., has had listed for him 100 acres about 5 miles from Council. Hay and hardy vegetables can be grown successfully on this land, and grain can probably be matured. After being improved the agricultural land in this tract will probably be worth about \$30 per acre, part of it being too steep and rocky to be cultivated.

In the Fillmore national forest, Bench Utley of Sevier, Utah, has secured 158.67 acres, about ten miles from Sevier and in the Sevier river watershed. This land is suitable for dry farming, being best adapted to the raising of small grains, alfalfa, and hardy vegetables. Improved land of similar character and in this vicinity sells for about \$15 per acre.

GAVE SIGNALS TO THE ZEPELINS

London, Oct. 22, 4 p. m.—Two men, whose names are not given, were delivered today by the civil authorities into the hands of the military for court-martial. They are charged with having given signals from the roof of a hotel at the time of a recent Zeppelin raid over the London area.

NEW COMPANY FOR THE WABASH ROAD

Indianapolis, Ind., Oct. 22.—A charter for a new Wabash Railroad company, the purpose of which is to take over all the Wabash railroad property now in the hands of receivers, was filed with the secretary of state here today. The capital stock of the new company was placed at \$143,460,000.

A meeting of the directors of the new company was to be held here late today, at which, it was understood, Edward F. Kearney, president and co-

WM. H. CRANE and MABLE TALIAFERRO in a scene from THE NEW HENRIETTA.

receiver of the old Wabash Railroad company, would be elected president of the company.

DEETH, NEV., HAS DESTRUCTIVE FIRE

The Elko Independent of Wednesday says:

The most destructive fire in the history of Deeth, if not in the entire county, occurred in the early hours of this morning. About 3:30 a. m. fire was discovered in the two story hotel on the Main street south of the railroad track and alarm was given. In a few minutes practically all the people of the town were gathered on the scene, but there was no means of fighting the flames except with buckets. It was soon seen that the hotel was doomed and effort was directed to the adjoining buildings, but they were obliged to stand helplessly in the streets and watch the flames lick up building after building until the end of the block was reached. Burning shingles and debris were carried hundreds of yards by the wind and it was only through greatest efforts that buildings in other parts of the town were saved from destruction.

From the hotel the fire soon communicated to the postoffice and Mrs. Nicely's store on the west side of the dwelling house on the east. It then spread to the restaurant and saloon of William Truett, and all of these buildings were completely destroyed.

The fire soon communicated to the postoffice and Mrs. Nicely's store on the west side of the dwelling house on the east. It then spread to the restaurant and saloon of William Truett, and all of these buildings were completely destroyed.

WEBER COUNTY IN LEAD IN WORK

Logan, Oct. 21.—Dr. R. J. Evans of the extension division of the Agricultural college, leaves Thursday for Carbon, Emery and Sevier counties where he will aid the county agents in establishing farm bureaus. These are unions of the business and farming interests of the county. The one in Weber county, the first in the state, has accomplished much good for the county in eradicating the Canada thistle, in draining swamp lands and in arranging for institutes. Beaver and Utah counties are just organizing bureaus and it is at present a vital duty of the state county agents to start such bureaus. In New York state the central farm bureau goes hand in hand with the local grange and is equally successful.

Dr. James H. Linford, head of the correspondence school at the U. A. C. is this week organizing extension classes in Garland for Box Elder county teachers and Prof. George B. Hendricks is doing the same in Kaysville for Davis county teachers.

"THE NEW HENRIETTA" A GREAT SHOW

A good play is always welcome to him who feels, if he does not know, that there is no art quite equal to stage art for refreshing the spirit of a wayfaring mortal. It is cheering news to read that one is to be offered here for our enjoyment at the Orpheum theatre next Monday night, and the pleasure is doubled by the announcement of a star cast, none of which could be or would be associated with other than a congenial part. That means the piece must be remarkably effective in character roles, and it is, and that the same parts have a singular appeal to the star actors concerned. This is just the enviable status of things in the forthcoming engagement of "The New Henrietta," with its five stars, William H. Crane, Thomas W. Ross, Maclyn Arbutck, Mabel Taliaferro and Amelia Bingham, who will all appear in Ogden. (Advertisement).

AUTO COMPANY BANKRUPT.
Sioux City, Ia., Oct. 22.—The Wyckoff-Cord Automobile company, one of the largest automobile companies in this section, filed a voluntary assignment in the district court today. The liabilities are given as \$100,000; assets not known.

MACHINISTS ON STRIKE.
Cleveland, Ohio, Oct. 22.—The biggest of the series of machinists' strikes in this city came today when 1,000 employees of the Peerless Motor Car company laid down their tools at the noon hour. The strike comes—union officials say—because demands for the eight-hour day and other concessions had been refused.

MINISTER IS SHOT.
Tacoma, Wash., Oct. 22.—Rev. James West, pastor of the First Baptist church here, was accidentally shot through the abdomen yesterday while deer hunting and is in a critical condition at a hospital here.

ENORMOUSLY LOW PRICED MILLINERY SALE
